COMPANY SUMMARY

Our story began in 2010 when we started our operations and we officially registered in 2012 as a limited liability company with our offices located in Makindye Division, Luvuma zone, Kampala District.

African Mushroom Growers U Ltd is set out to be the leading and largest mushroom producing firm in Uganda. We are currently employing 30 employees and we produce 30,000 mushroom gardens monthly. We have touched lives of many men and women by training, mentoring and even employing some of them. We have a network of over 1000 farmers that we work with and we have actually set the pace for mushroom farming as a business in Uganda.

We offer mushrooms, mushroom products and related services.

Our Products Include:

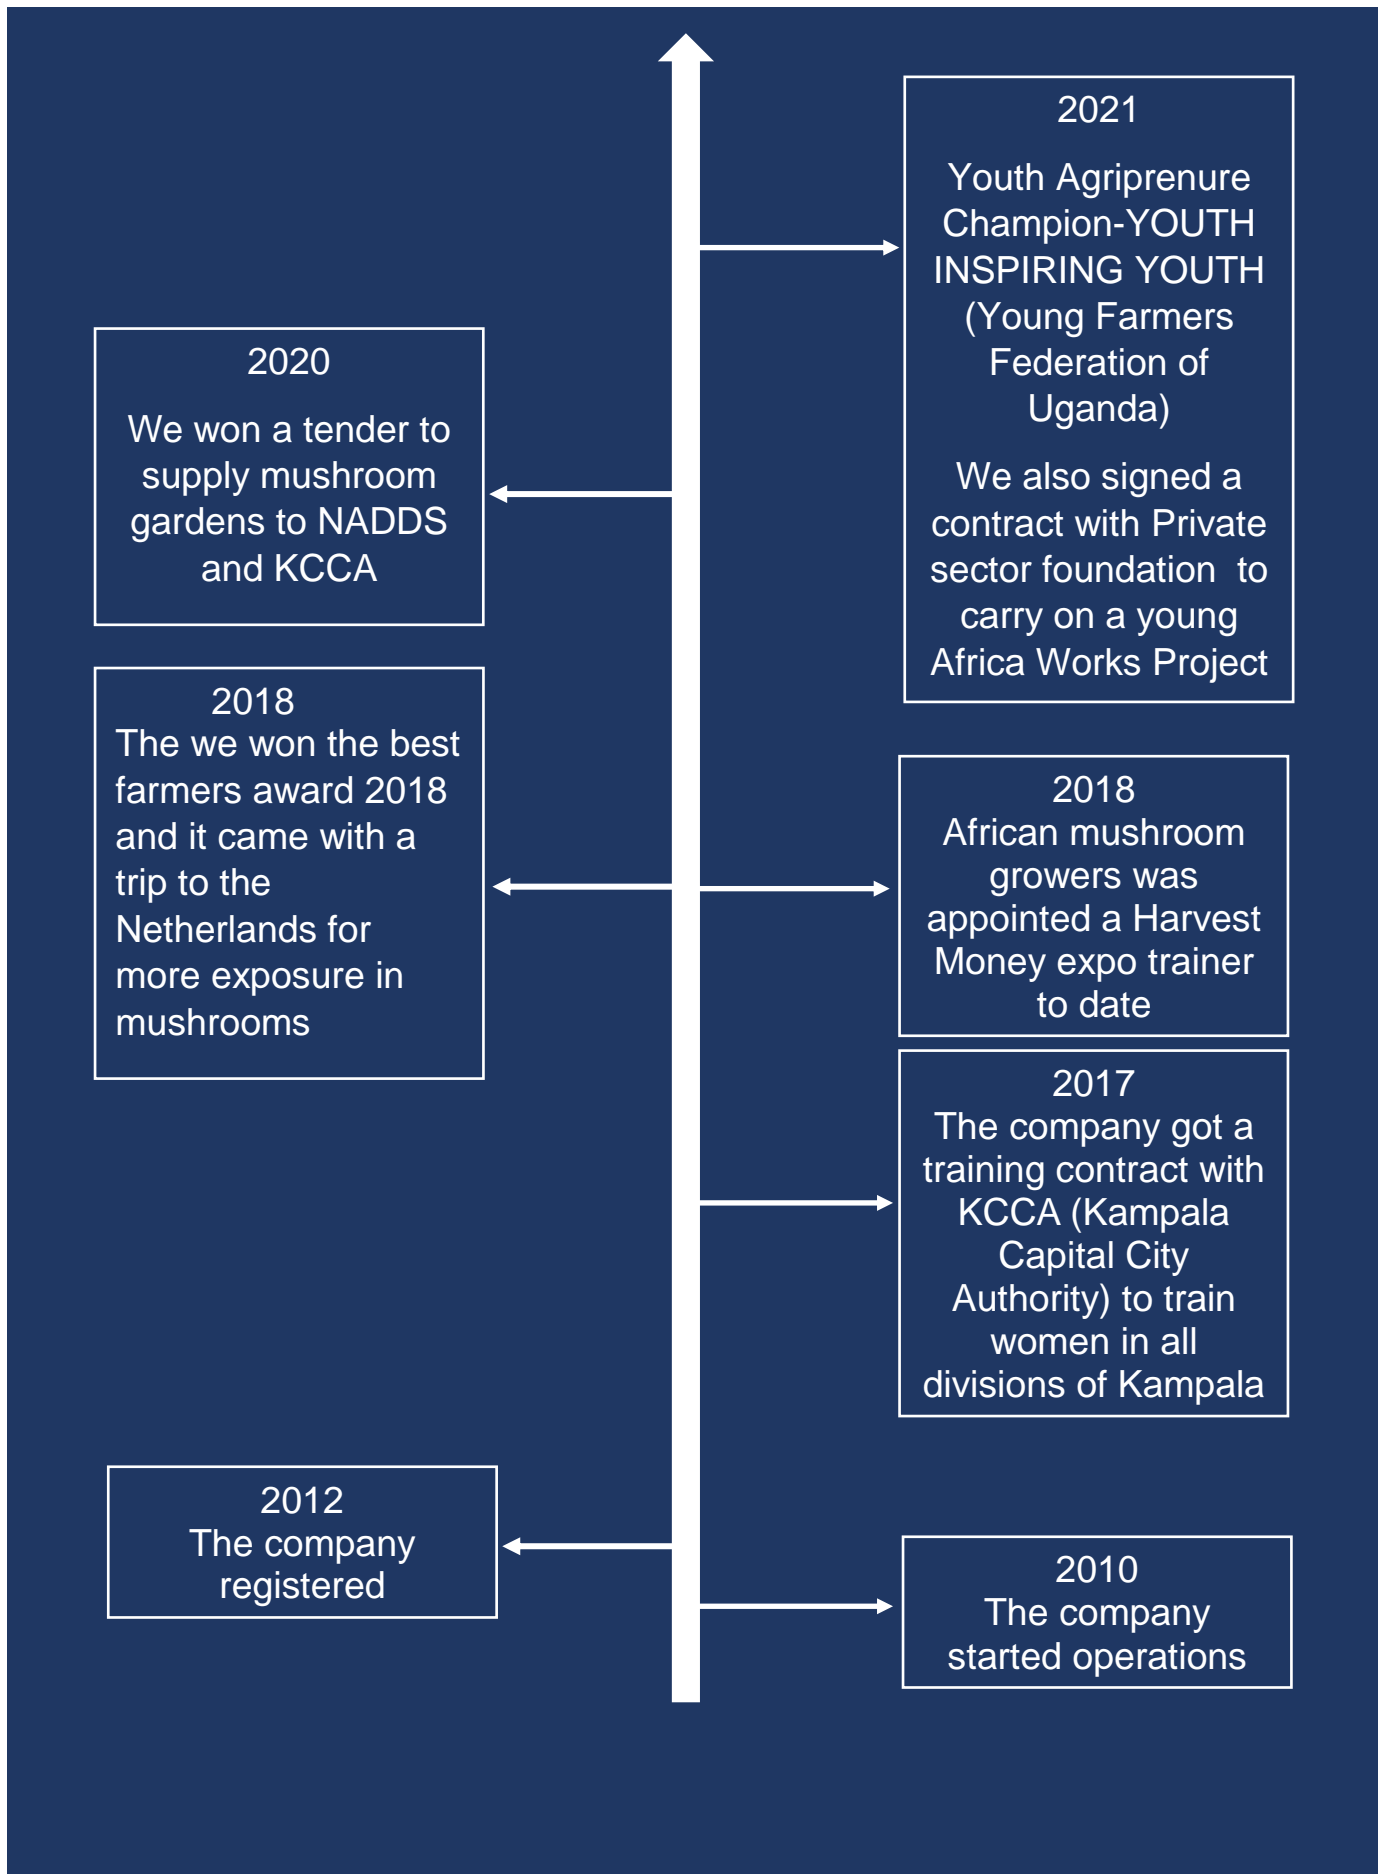

- Mushroom gardens(substrates).
- Fresh mushrooms.
- Dry mushrooms.
- Mushroom powder
- Mushroom spawns.
- Cotton seed husks.
- Mushroom Win
- Mushroom Herbal Jelly.
- Other mushroom production materials.

Our Services Include;

- Training in Mushroom growing.
- Training in mushroom post-harvest handling.
- Training in mushroom spawn production.
- Training in mushroom value addition.e.g. Mushroom Beverage/ Kawa, Powder, Herbal Jelly, Wines.
- Mentoring in mushroom as a business.

COMPANY HISTORY

AVAILABLE RESOURCES / ACHIEVEMENTS

- The company has all the legal documents that allow it to run all its activities smoothly without any disturbances. These include; Trade License, Certificate of incorporation, Tax Identification Number, among others.
- We have ten years of 'reputable' experience in training and mentoring many people into mushroom growing as a business.
- We have got a well-trained and knowledgeable staff in good numbers as far as mushroom cultivation and processing is concerned.
- The company has also been able to open up well equipped offices and stores located in Makindye Luvuma zone. The stores are big enough to accommodate up to 100 tons of cotton seed husks that help in the mushroom growing processes.
- Through further training, we have been able to develop means of culturing and multiplying mushroom spawn in our laboratory.
- The company has acquired a reputable mushroom Value addition.
- We have acquired a vehicle Canter UBE202W to transport our materials most especially cotton husks.
- And many others.
